## Upgrading my expired IronCAD License, What do I do?

This bulletin is intended to explain to existing IronCAD users how to upgrade to the latest release if you let your license expire.

1

The first thing to do is contact Magnacad, LLC to learn what licensing options are available and what costs are involved. Once you have purchased the software option, you can then follow the steps below.

2

After purchasing, you will receive an email from Magnacad with your new license certificates and any necessary files required to properly register your new software, based on the license type you purchased. Save all these files to your computer and keep them for your records in case you need to reinstall or transfer your license in the future

3A

### Transfer the license from one computer to another.

- or -

3B

### Install new license on new computer

To transfer a license to a new PC (you must be online during this process):

- Run the License Management Tool from the Start>All Programs>IronCAD>IronCAD 20XX
- Remove Licenses, answer Yes to both prompts.
- Then, on the new PC, you can use the License Management Tool, "Activate a Software License" to enter your serial number and codeword to activate the license.

To make this more clear:

- Remove the license from Computer A.
- Click yes to send notification back to IronCAD.
- Save the exported file.

This is the most important thing: You cannot import the exported file, you just activate on computer B using the serial number and codeword. Import is for when you receive a PKG file from support.

- Download the latest software here:  
<https://www.ironcad.com/product-updates>

- Follow these instructions depending on the license type you purchased:  
<https://community.ironcad.com/index.php?/blogs/entry/52-updating-your-license>

4

As an IronCAD active support subscriber, Magnacad grants you free access to all the currently available Mag-Libs for the subscriber year. Active support subscribers are both the IronCAD Armor Advantage and Subscription Service plans.

- Download desired catalogs here:  
<https://magnacad.com/MCDL>
- Enter the password provided on your Mag-Libs license certificate.
- Download the desired catalog you wish to use. You can access this site at any time.
