General Announcements

We rebranded our exclusive IronCAD catalogs as Magna-MODELS. We hope this will be the last name change for our catalogs! So the old "Mag-Libs" links are now "Magna-MODELS".

Gridfinity Catalog

Catalog and Tools for the Gridfinity 3D Printable modular, open-source grid storage system.

Gridfinity Pad

Gridfinity Pad

Gridfinity "pads" in individual IntelliShapes. Copy all features in 42mm increments. Use as a starting base to develop your own storage designs.

Gridfinity Groove

mm
Gridfinity
Groove

This is a subtractive IntelliShape that when dropped onto a surface will generate the Gridfinity groove to the specs needed to be used with the Gridfinity bases. The shape extends through part in both directions. You can edit as needed. This shape should only be used when your units are set to millimeters (mm). You can copy/link this shape in 42mm increments as mandated by the Gridfinity specs.
